

STATEMENT OF AUTHENTICITY

This document represents GIA's professional opinion, supported by the techniques and instrumentation available at the time of examination, that the diamond described in this report is a natural diamond and not a simulant or laboratory grown. This document also describes the quality characteristics of the diamond based on the GIA 4Cs and the GIA International Diamond Grading System™, and discloses any treatments discovered during GIA's analysis.

WHAT IS A GIA REPORT?

A GIA report represents a technologically advanced diamond and gemstone evaluation. It provides a blueprint of your gemstone's attributes and a tangible record of its quality.

The Gemological Institute of America is internationally recognized as the leader in gem education, research and laboratory services. Committed to protecting all purchasers of gemstones and jewelry, the Institute developed the International Diamond Grading System™ and the 4Cs of diamond quality, and continues to set the standard for grading and identification practices used all over the world.

As the world's pre-eminent gemological laboratory and research center, GIA is often the first to examine new gem materials entering the marketplace. It is also a leader in the discovery of new methods to detect and identify the latest simulants, treatments and synthetics. These discoveries translate into expert gemological services and underlie the accuracy and precision of your GIA report.

GIA's assessment of your gemstone is objective and unbiased. GIA does not sell gemstones nor is it affiliated with any industry group or commercial enterprise. In addition to adhering to stringent grading and identification standards, the Institute operates under a strict code of ethics designed to protect its independence and to ensure the integrity of every report it issues.

GIA DIAMOND GRADING REPORT

May 26, 2015
 GIA Report Number 6173170792
 Shape and Cutting Style Oval Brilliant
 Measurements 12.14 x 9.02 x 5.55 mm

GRADING RESULTS

Carat Weight 4.11 carat
 Color Grade G
 Clarity Grade VVS2

ADDITIONAL GRADING INFORMATION

Polish Very Good
 Symmetry Very Good
 Fluorescence None
 Inscription(s): GIA 6173170792
 Comments: Surface graining is not shown.

CLARITY CHARACTERISTICS

KEY TO SYMBOLS*
 Cloud

* Red symbols denote internal characteristics (inclusions). Green or black symbols denote external characteristics (blemishes). Diagram is an approximate representation of the diamond, and symbols shown indicate type, position, and approximate size of clarity characteristics. All clarity characteristics may not be shown. Details of facets are not shown.
